

## Information

**New pendulum for turkey drinker EasyLine****Pendulum  
Item 4633-00****Pendulum solid  
Item 4635-00**

The new version of the pendulum for the turkey drinker EasyLine is closed. Thus the water flows not as before inside the pipe into the cup, but flows now outside at the pendulum into the cup (see sketch below).

The pendulums are exchangeable. For rearing the starter ball must be adapted the pendulum. For the new narrower pendulum the starter ball Item 4636-01 (diameter 30 mm) must be used. For the open version it remains with the starter ball with the Item 4634-01 (diameter 25 mm).

The new versions of the drinker elements:
